

1 What is the most important science of all?

I think that medicine is the most important science of all. Thanks to medicine we can live longer / can enjoy our life more / do not need to suffer.

I think that maths is the queen of all sciences. Counting is a necessary skill in everyday life / Without maths we would not be able to construct anything / Maths, especially algorithms, are used in IT / Without maths there would be no computers or computer programmes.

2 What are the positive and negative aspects of being a doctor?

Being a doctor is very rewarding / Doctors are respected by people / They earn a lot of money / They have a great sense of achievement.

Being a doctor is very demanding / Doctors work shifts, sometimes they work during the day, sometimes at night / They can get infected easily / They have no time for family life / They see a lot of pain and suffering / They have to learn their whole life.

3 Would you like to be a scientist? Why? Why not?

I would like to be a scientist because it is a very respected job / I think I am very creative and full of ideas / I would like to contribute to the development of the world / I would like to find a cure for some diseases.

I would not like to be a scientist because working in a lab is boring / I do not have a scientific mind / I am not systematic and I give up too quickly.

4 Think of one technological invention you wouldn't be able to live without. Which one is it and why?

I would not be able to live without my mobile. It is my small personal computer. I can call people, search for information on the Internet, do shopping, learn and have fun.

I would not be able to live without a hairdryer. I use it every day because my hair is very important to me. I wash and dry my hair in the morning before going to school because I want my hair to look perfect.

I couldn't live without a blender. I love preparing cocktails and shakes. I am also passionate about cooking and I use a blender a lot.

5 Why are Facebook and Twitter so popular with people today?

Facebook and Twitter are popular because of good publicity and marketing / they help us keep in touch with our friends / they are user-friendly / they are easy to use / people want to know about others.

6 Do you think you could become a computer addict? Why? Why not?

Yes, I think I could become a computer addict because I spend many hours in front of my computer every day / the first thing I do in the morning is to log in to my computer and check my mail box / I take my laptop everywhere, even on holiday / I can't live without my laptop and Facebook.

No, I don't think I could become a computer addict because I have other, more interesting things to do / I prefer playing the guitar / I spend my free time doing sports.

7 Do you like watching soap operas? Why? Why not?

Yes, I enjoy watching soap operas because I can relax while watching them / they are very interesting and focus on everyday problems / they have an interesting plot / they are full of surprises / they are fascinating.

No, I don't like watching soap operas because they are boring and predictable / they are for elderly ladies, not for me / watching soap operas is a waste of time. / they are rather silly.

8 What is your favourite type of TV programme? Why?

I like documentaries / talk shows / sports programmes. I enjoy watching them because I can learn a lot of interesting facts concerning history, geography and biology / they are interesting and funny / they are very involving.

9 Do you think having a mobile phone is important? Why? Why not?

Yes, having a mobile phone is important. We can call someone any time we want / We feel safe when we have a mobile phone / We have access to the latest information / We can use maps as well as other useful applications / We can easily get in touch with our parents / We can even pay for our shopping / Mobiles are useful in an emergency.

No, having a mobile phone is not important. Mobile phones distract our attention / are expensive gadgets which quickly become obsolete / constantly need charging, which is very inconvenient.

10 Do you spend a lot of time in front of the computer? Why? Why not?

Yes, I spend a lot of time in front of the computer because I want to be in touch with my friends / I use social media a lot / I need to have access to the latest information / I use different applications which help me to learn / I use Wikipedia in order to prepare for school.

No, I don't spend a lot of time in front of the computer because I am more into sport / I prefer watching TV or reading a good book / I work part-time to earn some extra money.
