

**1 Should we pay for our education? Why? Why not?**

I think that education should be free because everyone deserves equal chances in life / every country needs well-educated citizens.

I think that parents should pay for the education of their children. If they paid for education, they would respect teachers and teaching more / they would support their kids in the education process / they would motivate their kids to learn / it could be provided at a higher level.

**2 Is educating kids at home a good idea? Why? Why not?**

I think educating kids at home is a good idea. This way parents can be sure that their children get proper education / know what their children are doing all the time.

I don't think educating kids at home is a good idea. Kids should spend time with their peers / should learn teamwork and cooperation / need professional, systematic teaching.

**3 Why do you think you have to go to school?**

I have to go to school because it is obligatory / it is my duty / it is necessary to succeed in life / I want to get a good job in the future.

**4 Would you like to change your school in any way? Why? Why not?**

Yes, I would like to change my school a bit / in some ways.  
I would like to reduce the number of students in every class / I would like to have more practical lessons / I would like to have a wider choice of extracurricular activities / I would like to have a new gym and a safe playground at school.

No, I really like my school and I don't think it needs any changes.

**5 What would you like to do after graduating from school?**

I would like to look for a job and earn some money / I would like to both study and work / I would like to take a gap year and travel around Asia / I would like to study medicine / IT / finance.

**6 Is education important? Why? Why not?**

Yes, education is very important. Thanks to education we can read and count / Thanks to education the world develops / Education makes our life easier / Education helps us to succeed in life.

No, education is not very important. More important are life skills: the ability to cook, the ability to drive a car or to fix something.

**7 Do you think people should learn music at school? Why? Why not?**

No, I don't. I think there are other more important subjects than music such as Maths or Languages.

Yes, I think people should learn music at school because music teaches us sensitivity / music is as important as other subjects / music lessons give students a chance to listen to incredible pieces of music.

**8 Have you ever had a favourite teacher? Tell me about him / her.**

Yes, I have had a favourite teacher. It was my Polish / History / Chemistry teacher.  
I liked my him / her because we had great discussions during the lessons / he / she was a gifted speaker / the lessons were very practical and interesting.

No I haven't. I respected all of my teachers, but neither of them was unique / I was rather scared of my teachers and I did not have a favourite one.

**9 What was your favourite subject at school? Why?**

My favourite subject was maths / biology / PE.  
I think maths is the queen of all sciences and it is very useful / Biology lessons were very interesting and involving / My PE teacher was not only a great volleyball coach, but he was also a mentor.

**10 Did you like your school? Why? Why not?**

I liked my school because my schoolmates were great / I had great, committed teachers / I could develop my interests there.

I did not like my school because the lessons were boring and very theoretical / the teachers were too strict and demanding / I was bullied.
